

PRESS RELEASE

Inno novelties at Stockholm Furniture Fair 7th – 11th February 2012

We are launching the new table series Lab and the complete Basso family with four different sizes and several leg options for conference needs. We will also introduce Kola with wooden legs, the newcomer in the popular Kola family. During the fair Inno Svenska's showroom in Stockholm Design District welcomes you with an exhibition of our very latest news.

LAB design Harri Korhonen

Lab is a new pure and light modular meeting or dining table. Its wooden legs (birch / oak / stained, painted or natural) evoke homely warmth. Width 800-1200mm, different lengths.

BASSO design Harri Korhonen

Basso is a family of chairs with remarkable sitting comfort. Basso creates discreet reliability and even playful ambiance particularly in meeting rooms. It has a lumbar support embedded in the streamlined profile. The upholstered armrest protects the edge of the table top. Basso S is a stackable side chair that completes the Basso range of meeting chairs. The slimline structure is proven to be strong and durable (tested ISO7173:1989, level 5).

KOLA design Mikko Laakkonen

Kola Light Wood is the newest member of the growing Kola family. The combination of warm materials reflects the current interior spirit. Kola is aesthetically and weight wise a light chair making it fit both public and private modern interiors. The seat, manufactured of 100% recyclable polyester felt, is part of the supporting construction. It has also great acoustic absorption capacities. The felt seat can easily be renewed which gives the chair a longer life cycle and accordingly it leaves a smaller ecological footprint. The upholstered cushion gives extra comfort and allows the use of playful colours. Fire resistant according to EN 1021-1 and EN 1021-2. Easy to clean. Kola family includes an easy chair, a rocking chair, a meeting or dining chair and a stacking small chair with or without armrests.

AURA design Mikko Laakkonen

Aura surrounds you and is a perfect 2-seater sofa for creating peaceful interiors. Thanks to its high back, the tempting and sympathetic Aura works also as a divider. The light looking new sofa is presented exclusively in the city showroom.
