

PRESS RELEASE

Inno at Stockholm furniture fair 9th – 13th February 2016

Inno will be presenting novelties during Stockholm furniture fair 2016. New products include Aura Wood, Bondo Wood, Basso S Meeting and a new coat rack by Mikko Laakkonen. A new size category and electrification of Lab meeting table series along with Lab Bar and Lab cafeteria tables are exhibited as well as Julie chair, Aura, Taivu, Bondo and classics Oscar, CD and Select in monochrome outfit. Welcome to our stand B05:21!

AURA WOOD design Mikko Laakkonen

Aura Wood is a natural extension to the Aura family. With its wooden frame and standard height Aura will be entering the use range of regular sofas yet preserving the characteristics of the award-winning Aura series.

BONDO WOOD design Harri Korhonen

The Bondo table range is updated with a wooden leg option. Bondo table is available in different sizes that overlap each other slightly. The light structure, beveled table top edge and soft shape create an aerial impression.

BASSO S MEETING design Harri Korhonen

Basso S Meeting chair completes the Basso range of meeting chairs, at best when space is limited. Basso creates discreet reliability and playful ambiance particularly in meeting rooms. The Basso S Meeting chair is presented with a swiveling four-star base with and without armrests. Also available with a five-star base and castors.

COAT RACK design Mikko Laakkonen

The new totally wooden coat rack has pegs shaped as truncated cones that penetrate the stem, functioning as hooks. The free standing coat rack is available in natural or stained oak, mixed or monochrome.
